

GIVING IMPACT - PROGRAM LEVEL

\$1,500

- Natural Farming: Send a team from Southeast Asia to train a team in South Asia about natural farming methods and how to lead future training seminars.

\$2500

- New program in Southeast Asia. This is a new program that has been in the works for years. It is coming out of a well established program and will be contributed as a match to local funding.

\$3,000

- Southeast Asia: Help to fund a roundtable symposium between FARMS and 7 to 10 programs (1-2 representatives expected per program) in Southeast Asia. The cost will be used primarily for travel, good food, and lodging for participants.

\$5,000

- South Asia: Provide second round of funding to increase the number of loans each cycle. Current participants are raising goats, poultry, and pigs, as well as beekeeping and tailoring.

\$10,000

- South Asia: We are planning to send about \$2,000 this spring to finish the first round of loan funding for a program starting with 30 farmers growing millet and yam. Then we would like to send another \$8,000 as they prepare to double the size of the program.
